From an innovation record to a readiness decision

Innovation record

- Knowledge creation
- External R&D
- Training
- Organizational innovation
- Product innovation
- Process innovation

Digital markers are the label only.

Two scores, one blend

Knowledge layer

Six routines, calibrated on the training sample

AI layer

Gradient boosting on the same items

KAID = 0.95 AI + 0.05 knowledge

The holdout does not favor the blend.

Readiness band

Hold
4.0% ready Missing: process innovation

Develop
38.4% ready Missing: training

Prioritize
64.5% ready Missing: knowledge creation
